+6289652117417 | fatihakmalh@gmail.com | linkedin.com/in/fatih-akmal-hibatullah/ | Bandar Lampung / Jakarta
Information Technology graduate (GPA 3.96/4.00) from Universitas Bina Sarana Informatika with over 2 years of experience in Television Program Development (R&D), both in full-time and freelance roles. Possesses strong analytical thinking and problem-solving skills, with a keen interest in research and data processing. Experienced in data handling, data visualization, and data entry tasks to support program evaluation and development. Highly motivated in research, development, and innovation processes, with a strong curiosity for exploring new challenges and opportunities.

Education

Universitas Bina Sarana Informatika – DKI Jakarta, Indonesia Sep 2019 – Aug 2023
Graduate in Information Technology, / 3.96
Focus on Algorithm, Web Development & Network Management. Relevant coursework: Statistics, Web Development, Database Systems, Network Management: Computer Network & Routing and Switching).

Experiences

Program Development Staff / Research & Development TV **Full-Time** (May 2024 – Now)
PT. MDTV Media Televisi **Freelance** (Oct 2023 - Apr 2024)

- Developed and evaluated television program concepts based on performance analysis, rating and share metrics, and industry trends.
- Utilized Nielsen Arianna to monitor daily program performance and conduct competitor analysis across time slots and genres.
- Analyzed television program performance at minute-level granularity, conducted weekly and monthly performance analysis, and tracked long-term program performance trends to support scheduling and content strategy decisions.
- Prepared weekly television program evaluation reports by integrating quantitative data with qualitative insights.
- Performed program previews and reviews of internal shows and competitor broadcasts to provide content improvement recommendations.
- Processed, analyzed, and presented audience research data from surveys and Focus Group Discussions (FGD) to support content evaluation.
- Conducted content and performance analysis using Excel Pivot Tables to identify viewing patterns, trends, and performance gaps.
- Automated data processing and reporting workflows using basic Excel macros, improving efficiency and reducing manual work.
- Customized, maintained, and standardized Excel reporting templates and macros to enhance data analysis consistency and documentation accuracy.
- Collaborated with Programming, Production, and related stakeholders to support data-driven decision-making.
- Acted as supervisor and user mentor for interns, providing task guidance, scheduling, and performance feedback.

Magang Kampus Merdeka
Intern Research & Development – NET Mediatama Televisi Aug 2022 - Des 2022

- Conducted minute-by-minute monitoring of active television programs to support performance tracking and content evaluation.
- Participated in field audience surveys across multiple Jabodetabek locations to observe viewer readiness and behavior during the transition from analog to digital television broadcasting.
- Performed program previews of 10+ episodes per title to support scheduling recommendations and content assessment.
- Managed and maintained television program metadata for both legacy and new content to support content library organization and archival needs.
- Provided content recommendations and basic insights to support television program development and editorial decisions.

Skills

Technical Skills:

- Microsoft Office (Word, Excel, PowerPoint)
